

SCHLEY LAUDS NAVY AT BANQUET TABLE

Attended by Rear Admiral Winfield Scott Schley and 200 other heroes who have been conspicuous for bravery in battle, the banquet which last night closed the annual convention of the National Association of Naval Officers, was representative of one of the most unique and distinguished gatherings in the history of the Capital.

Admiral Schley, who was given the ovation of the evening, delighted his hearers by saying in the beginning of his toast: "I would rather wear a medal of honor conferred on me by my Government for conspicuous service to the nation than wear the sash of a King inherited by accident of birth."

Admiral Schley's address was filled with praise of the men of the navy. William L. Hill, chief boatswain of the navy, introduced the admiral, and was greeted with prolonged applause when he referred to the admiral as the greatest leader of them all.

During the course of his remarks he advocated a larger and better navy, his toast being "The navy has never taken water except at a launching."

Col. Emmet Urich, who was yesterday elected commander of the United States Medal of Honor Legion for the ensuing year, was the recipient of many congratulations, and was roundly applauded at the conclusion of his toast. Capt. Batholomew Digges, of Washington, elected to the position of senior vice commander, was also present, as was Capt. Alexander Scott, who was named yesterday as acting national adjutant.

The delegates are leaving for their respective homes today. The place for the meeting of the eighteenth annual convention will be selected by the executive committee later.

The bride wore a tailored gown of blue broadcloth with a blue velvet hat with plumes the same shade. She carried a shower of violets. Immediately after the mass the bride and bridegroom left for their bridal tour and their future home will be in Washington.

The gymnasium was brilliant with bunting, flags, and fall flowers and foliage. The Engineer Band furnished the music and the dancers lingered late.

ALASKA BANK ASSIGNS; SCHOOL TEACHERS LOSERS

SEATTLE, Wash., Oct. 11.—The Reynolds Bank at Valdez, Alaska, yesterday closed its doors. Several bankers say the failure will not affect Seattle's financial interests and that the money Reynolds owes Seattle merchants will be paid.

The money invested with the Reynolds Bank was chiefly from Boston and New York school teachers.

TWO WOMEN GET DIVORCES.

Absolute divorces were granted in Justice Gould's court this morning to Julia P. Garrett, from George N. Garrett, and to Helen D. DeVo, from Herbert L. DeVo. Both divorces were secured on the ground of infidelity. In the latter case the court issued a rule, which is returnable October 15, to show why Herbert L. DeVo should not be held in contempt of court for failure to pay alimony.

LEAPS FROM HIS AUTO; IT PLUNGES INTO GULCH

NEW YORK, Oct. 11.—Just as his automobile skidded over the edge of the Palisades near Shadyside, N. J., late yesterday afternoon, Dr. Sigmund C. Hilfer, of 6 Anderson avenue, Grand View, saved himself from a seventy-foot plunge to certain death at the bottom of the gulch below by a timely leap from his seat in the machine.

It was by the sheerest good fortune that he avoided being dragged with the automobile. As he fell into the road the front wheel of the car scraped sideways over his left leg and he was pulled

to such a position that his head overhung the side of the road. He was sliding with the machine when some passerby seized one of his legs and hauled him back to safety.

The automobile careened on down the side of the incline and with the good fortune of its owner escaped serious damage as it crashed to the bottom of the almost perpendicular grade.

GEORGE KEPT HIM BUSY.

A well-known Virginia clergyman, one-time president of William and Mary College, was married three times, and on each occasion the ceremony was performed by his brother, an even more renowned bishop. When the first marriage took place, the bishop had to refuse a tempting invitation from an old

friend because—so the letter ran—"I am going up to Williamsburg on that date to marry my brother George."

The same friend happened to be on the train with him, years afterward, when he was traveling to the second ceremony. "I am going to marry my brother George," the bishop explained. Benignly, after the business of greetings was over, again many years passed, and the same journey was taken

once more for the same purpose. By a strange coincidence, the identical friend ran into the bishop as they hurried through the depot to their respective trains. "Where going, bishop?" the former asked, as they grasped hands and dashed by each other. "I am going where I am always going," the answer came back, ponderously, "to marry my brother George!"—Harper's Weekly.
